## DoP / Colorist / Drone operator

Twitter

Facebook

Welcome to my CV.  
Here you can find information  
about my primary activities and  
my passion: Images!

My extensive skills as well as  
my experience to date allow  
me to work in most  
documentary productions for  
television.

From 50 to -35°C (120 to -31°F),  
from 5 star hotels in the  
Seychelles to humid hammocks  
in the Amazon, with 2 to 50  
pounds of equipment on my  
back, I have always done my  
job of Director of Photography  
and Cameraman with the same  
will and the same goal: that of  
capturing the best possible  
image for the film.  
Self-made with soul, I am  
constantly looking for  
techniques and technical tricks  
that allow me to improve  
myself and my abilities.

Enjoy going through my CV. I  
am open to all proposals and I  
hope to have the pleasure of  
collaborating with you in the  
future.

Happy filming!
